AI depends on creativity.

So how should creators be recognised when their work helps train AI systems and is used in AI prompting?

@tawhianz

1. Consent

1. **Consent**
2. **Control**

1. **Consent**
2. **Control**
3. **Credit**

1. **Consent**
2. **Control**
3. **Credit**
4. **Compensation**

Policy & regulation that is pro AI & pro copyright.

Licensing is the solution.....and its already happening.
